What is a 40 ft containerized generator set?

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

How many generators can be used in a container genset?

The container gensets can be powered by engines of following manufacturers: The container built-in control panels are based on the intended use, e.g. manual/stand alone operation, emergency/standby or parallel operation. In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

What is the capacity of a container power generator?

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in soundproof, weatherproof ISO container with a length of 10', 20' or 40'.

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, ...

This series generator set can be easily moved to the desired location, can run under the most demanding working conditions. These gensets are all ...

Discover advanced containerised generator sets featuring remote monitoring, environmental protection, and scalable power solutions for reliable industrial and commercial power ...

MITTRONIK Engineering is specialised in customized solutions. The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

Originally launched for limited markets in 2021, the 40-ft ...

Diesel generator WS1400-MX-H Container version is designed to generate electricity as the main or backup power supply source in construction, banking and IT-sphere, to solve various tasks ...

This series generator set can be easily moved to the desired location, can run under the most demanding working conditions. These gensets are all with high quality and reliable diesel ...
