Who is building a solar power plant in Mozambique?

The Spanish group TSK has won the contract to build the Cuamba solar power plant in the Niassa province of Mozambique.

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

Should Mozambique export electricity?

One of the big challenges of Mozambique is its size and shape, which make the transportation of electrons across the country quite expensive. Exporting electricity would bring foreign currency that can support investments in domestic transmission and distribution infrastructure.

As global demand rises for clean, mobile, and resilient energy, one innovation is standing out: the mobile solar container. Designed for versatility and rapid deployment, these self-contained ...

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility ...

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and ...

Mozambique is set to significantly expand its solar power infrastructure with two new plants in Cabo Delgado and Nampula. These ...

Mozambique's Energy Regulatory Authority (ARENE) has launched a tender for the development of hybrid minigrids that integrate solar power and battery energy storage ...

The efforts to scale solar and wind energy represent the first implementation roadmap that is being developed to bring the ETS from ...

Mozambique is rapidly emerging as a leader in renewable energy integration, with energy storage power stations playing a pivotal role. Discover how this African nation is tackling energy ...

Mozambique is set to significantly expand its solar power infrastructure with two new plants in Cabo Delgado and Nampula. These initiatives underscore the country's firm ...
