Governor Kathy Hochul today announced that the New York State Public Service Commission approved a new framework for the State to achieve a nation-leading six gigawatts ...

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been ...

Elevate Renewables has completed contracting to construct a battery storage facility to store power during non-peak hours and discharge power during peak demand ...

As part of the new airport's build, Daxing has an integrated project within it combining solar power generation with energy storage. This ensures a stable and sustainable ...

Just eight years ago, site owner Xcel Energy was laying plans to replace its existing Sherco coal power plant at Becker in the Minneapolis area with a new 786-megawatt ...

These innovative CO2 batteries from Energy Dome promise long-duration energy storage for the grid, and reliable 24/7 clean power for data centers.

In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record ...

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. ...
