A breakthrough in solar panel manufacturing takes a significant step toward a "closed-loop" manufacturing process. Researchers at SolarCycle and Arizona State University ...

In a groundbreaking development for renewable energy, a collaborative study by SOLARCYCLE and Arizona State University has revealed that solar panels crafted from ...

While traditional solar panels have made significant strides in efficiency and affordability, a new player has emerged on the solar energy scene - solar glass panels. In this blog, we will delve ...

SolarCycle announced a breakthrough in solar circularity with the successful development of a proof-of-concept solar panel made with 50% recycled glass from end-of-life ...

A new study has found that solar panels, which are made with 50% recycled glass, perform just as well as new ones.

Researcher Kate Fisher built and tested two sets of panels: one using only new glass, and the other using a 50/50 mix of new and ...

One such breakthrough was recently announced out of a collaboration between a company called SolarCycle and Arizona State ...

A breakthrough in solar panel manufacturing takes a significant step toward a "closed-loop" manufacturing process. Researchers at ...
