Here are the 25 biggest solar, wind, and battery-storage installations completed in the U.S. in 2024. Canary Media's chart of the ...

With the new projects online, renewables (including wind, solar, geothermal and hydropower) and battery storage now make up 30% of the country's large-scale power ...

Discover the current state of energy storage companies in North America, learn about buying and selling energy storage projects, ...

The cumulative installed capacity of energy storage in the United States exceeded 20GW and reached 21.6GW. Among them, 18 energy storage projects are supporting the ...

Explore the top 5 ambitious renewable energy projects in the U.S., featuring solar, offshore wind, and battery storage set to transform ...

All capacity data--including solar capacity--in this report is reported in MWac, not MWdc. This enables comparison across technologies (e.g. solar, wind, batteries, gas turbines, etc).

Discover the current state of energy storage companies in North America, learn about buying and selling energy storage projects, and find financing options on PF Nexus.

Explore the top 5 ambitious renewable energy projects in the U.S., featuring solar, offshore wind, and battery storage set to transform the energy landscape.
