While the concept of pumped storage hydropower (PSH) is not new, adjustable-speed pumped storage hydropower (AS-PSH) is equipped with power electronics; thus, it has more ...

As Oman pushes to achieve 35% renewable energy by 2035 under its Vision 2040 plan, this intermittency issue keeps grid operators awake at night. The Sultanate's recent pumped hydro ...

This paper aims to review energy storage options for the Main Interconnected System (MIS) in Oman. In addition, it presents a techno-economic case study on utilising ...

This paper designs and investigates a photovoltaics (PV)-wind-hydropower station with pumped-storage installation (HSPSI) hybrid energy system in Xiaojin, Sichuan, China as ...

This thesis has focused on the technical and economic feasibility of the application of Pumped Hydro Storage (PHS) in Oman's main interconnected system (MIS).

In this paper, the potential of hydropower in the Sultanate of Oman is studied, considering Wadi Dayqah Dam in Quriyat.

A newly published global study delves deep into the role of electricity storage systems in island and remote power systems, a topic of growing importance for regions like Oman.

In this Review, we discuss PSH operation in power system support. There are different modes of PSH operation, including open-loop versus closed-loop systems, and ...
