As we strive for a future with reduced carbon emissions and more efficient energy usage, technologies like those offered by PhaseStor are essential. The insights during the webinar ...

Explore Phase Change Energy Solutions" in-depth company profile, including funding details, key investors, leadership, and competitors.

Phase Change Solutions is a global leader in temperature control and energy-efficient solutions, using phase change materials that stabilize temperatures across a wide range of applications.

Our technology engages bio-based phase change materials, enabling us to craft highly efficient and eco-friendly Thermal Batteries. PhaseStor, with over 35 years of unwavering dedication, ...

Phase change energy storage materials (PCESM) refer to compounds capable of efficiently storing and releasing a substantial quantity of thermal energy during the phase ...

The top 10 companies in advanced phase change materials are at the forefront of this transformation, developing cutting-edge PCM technologies with a wide range of applications ...

Companies such as Phase Change Energy Solutions, Microtek Laboratories, CPCCM, and ENGIE are acknowledged leaders contributing significant advancements in ...

In this blog, we profile the Top 10 Companies in the Phase Change Material Industry --innovators driving material science advancements across organic, inorganic, and ...
