How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859(USD) for 13 November,2025. Between now and the end of the year,container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

How much does a 20ft shipping container cost?

As of April 2025,the average cost of a used 20ft shipping container ranges from \$1,300 to \$2,000,while 40-foot containers can range from \$2,000 to \$3,200,depending on availability,shipping container condition,and location. The price range can vary depending on the region: Global demand is balancing out after years of volatility.

How much does shipping container transport cost?

Shipping container transport costs range from \$1,500 to \$15,000based on size,route,and market conditions. Fuel costs,route distance,container type,and demand affect prices the most. Asia to North America routes cost \$3,000-\$6,000 for a 20ft container. Book in February-March or September-October to save 10-25% of transport cost.

How much does a 40 ft cube container cost?

The 40ft high cube container will set you back anywhere from \$2,000 to \$6,000. A new container,with its fresh-off-the-factory-floor feel,naturally costs more than its seasoned counterparts. Used or cargo-worthy containers,which have braved the elements and collected some dents along the way,have lower price tags.
