How much does a 40 ft container cost in 2025?

On April 24, 2025, the Drewry World Container Index (WCI) showed a 2% drop, bringing the cost to \$2,157 per 40-foot container. This is still considerably higher than pre-pandemic rates but reflects a 79% drop from the peak seen during the COVID-19 surge in September 2021.

How much does a 40-foot container cost?

Importers found themselves shelling out astronomical sums, with costs for a 40-foot container soaring to over \$4,000. This surge sent shockwaves through supply chains and left many businesses scrambling to adjust their budgets. Fast forward to 2024, and the landscape has shifted dramatically.

What is a 40 foot container?

The 40-foot (FEU) container offers nearly double the space of a 20-foot unit while keeping handling costs proportionally lower. It's ideal for exporters managing bulk or consolidated shipments.

How much does a 40 ft reefer container cost?

A cargo-worthy 40-foot reefer container can be yours for about \$844, a steal for businesses in the perishables trade. Flat rack containers are the go-to solution for oversized or oddly shaped cargo. A used 20-foot flat rack costs approximately \$1,000 and offers flexibility for challenging shipments.
