How much do solar panels cost in New York?

As of January 2025, the average solar panel system costs \$2.92/W including installation in New York. For a 5 kW installation, this comes out to about \$14,608 before incentives, though prices range from \$12,417 to \$16,799. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much do solar panels cost?

On average, solar panel brands charge between \$2.74 and \$3.30 per watt before the various tax rebates and exemptions that can significantly bring down the cost. SunPower, Panasonic and REC Solar products cost a bit more than competitors, though they also come with high reviews and a variety of products.

Is investing in solar panels worth it in New York?

According to feedback from over 500 solar energy customers in New York, solar panel investments pay off over time in the state. New York's decent amount of sunlight and relatively solar-friendly policies make it one of the best states for solar panels.

Are solar panels tax deductible in New York?

Solar equipment installed in New York is exempt from the state's standard 4% sales tax. While this won't lower the base cost of the panels, you do not need to budget for the additional cost. Under the state's Real Property Tax Law, property taxes on homes with new solar installations cannot increase for 15 years.
