Why does Southeast Asia need flexible energy storage solutions?

Southeast Asia's exponential growth in electricity demand, averaging over 6% annually over the past two decades, has created an urgent need for reliable and flexible energy storage solutions. This surge in demand is primarily driven by increasing ownership of household appliances and rising consumption of goods and services across the region.

Is Indonesia facilitating large-scale energy storage projects?

Indonesia's successful securing of a World Bank loan for developing pumped storage facilities exemplifies how government backing is facilitating large-scale energy storage projects.

Could battery energy storage reshape energy systems?

It is on the brink of a battery energy storage (BESS) leap that could reshape its energy systems. The region's market is valued at around USD3.5 billion in 2024 and is projected to approach USD5 billion by 2030, expanding at 6% CAGR. What began as scattered pilot projects is becoming a commercially competitive landscape.
