---

The OpenUPS2 was designed to provide user specified regulated power output from a wide input voltage or battery backup, microprocessor assisted LiFePO4 battery charging and cell ...

FNIRSI DPS-150 DC Power Supply Variable, 30V 5A Adjustable DC CNC Power Supply with 4-Digit IPS Display, &lt;20mV Power Ripple, PD/QC/DC Input, PC Programmable Switching Power ...

MagnaDC programmable DC power supplies deliver rugged, current-fed power conversion backed by 40+ years of innovation and USA manufacturing. A unified control platform and over ...

Programmable DC power supplies to suit many applications including healthcare, harsh industrial, avionics/defense, test and measurement and semi-fab.

The output voltage is adjustable within a range of 22.5 to 28.5 V DC. The power supply provides a U/I output characteristic with a power reserve of up to 50 percent and allows parallel operation ...

Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double layer capacitors are fully maintenance free ...

Our programmable DC power supplies are designed with ease of use in mind, featuring a user-friendly interface that makes it easy to program and adjust your settings.

Power your tests with programmable voltage and current control in a compact benchtop design. With high accuracy, remote operation, and advanced sequencing, it's built for automation and ...
