Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

Does dingbo provide a container generator without soundproof function?

Dingbo provides standard container generator without soundproof function and container silent generator set. The feature as below: 1. Design and manufacture as per the international standard container, i.e.: 20 feet for 1000KVA or less and 40 feet for 1250KVA or above. 2.

Why should you choose ISO container generators?

The acoustic properties of the container can lower the noise level of the chosen generator by up to 40dB (A), depending on both the size and model of the generator. The cooling system, silencers and sound traps are designed to reduce installation costs and due to the ISO container dimensions, the unit is easy to transport & lift.

Are CPs generator containers controlled by DSE?

Our generators are coupled with Mecc Alte, Stamford, or Leroy Somer alternators and controlled via DSE or ComAp control panels to ensure top-notch performance. Why Choose CPS Generator Containers?
