The 1-phase, 2-in-1 hybrid inverter by SMA The Sunny Boy Smart Energy single-phase hybrid inverter is the two-in-one solution for generation and flexible use of solar power at home.

Battery inverters by SMA can be integrated into existing PV systems and combined with electric charging stations or heat pumps at any time to make optimal use of the generated solar energy.

The PEAK3 inverter focuses on what is most important - maximum yield and optimal plant availability. All features and functionality have been specifically engineered to reduce weight, ...

Did you know PV solutions with SMA ShadeFix optimization outperform traditional module-level optimizers? SMA's propriety technology produces more power, speeds installation, reduces ...

Find out more about high efficiency solar and battery inverters, monitoring & control solutions, system solutions or apps and digital products from SMA.

SMA Solar Technology AG is a global leader in PV inverter technology, headquartered in Germany and serving installers in more than 20 ...

Access our compatibility document to ensure interoperability with your SunSpec certified devices and SMA inverters. Please refer to the compatibility document for updated information and ...

Discover the global specialist for inverters, photovoltaic & solar technology from the private solar system to the megawatt PV power plant.
