---

Based on an extensive evaluation of various energy storage technologies, four (4) key solutions have been identified as the most suitable options for Sri Lanka which can be implemented ...

Hayleys Solar has partnered with global renewable energy leader BYD to introduce state-of-the-art energy storage and inverter solutions to the Sri Lankan market, marking a ...

But as we scale up renewables, a new challenge emerges: how do we store and manage clean energy when the sun isn't shining and the wind isn't blowing? This is where ...

Hayleys Solar and BYD introduce advanced battery and inverter systems in Sri Lanka to boost energy security, savings, and sustainability.

But as we scale up renewables, a new challenge emerges: how do we store and manage clean energy when the sun isn't shining ...

This research aims to mitigate these emissions by reducing reliance on fossil fuels and maximizing solar photovoltaic (PV) energy generation. It is supported by a grid-connected ...

The overall project aims to enhance the reliability and optimise the existing fault clearance system of transmission and ...

SgurrEnergy has secured the contract to develop Sri Lanka's first 100 MW solar photovoltaic project with a 12 MWh battery energy storage system (BESS). It will be ...
