Can you get solar power in St George?

Access to sustainable, maintenance-free solar energy is now available to St. George residents through SunSmart. City of St. George Energy Services Department and Dixie Escalante Electric have built a large solar photovoltaic (PV) facility allowing residents to get solar power through SunSmart, a community solar farm.

How will energy storage impact New York?

Storage will increase the resilience and efficiency of New York's grid, which will be 100% carbon-free electricity by 2040. Additionally, energy storage can stabilize supply during peak electric usage and help keep critical systems online during an outage. All of this while creating an industry that could employ at least 30,000 New Yorkers by 2030.

What are New York state's energy storage goals?

Learn more about installed energy storage projects and New York State's progress toward its energy storage goals. New York's Climate Leadership and Community Protection Act (Climate Act) codified a goal of 1,500 MW of energy storage by 2025 and 3,000 MW by 2030.
