Switching DC-DC converters are available in regulator, step up, step down or fully isolated options. Available in 12V, 24V or 48V. DC-DC converters are designed to increase or ...

These converters are extremely efficient, compact and include all safety features. The step-down DC-DC converter has an input voltage of 24 VDC nominal (range 20 VDC to 37 VDC) to a ...

Installing a DC-DC step-down converter allows you to supply stable, continuous nominal 13.6V output voltage to all your 12V components ...

Shop The Inverter Store for converters designed to connect existing systems and switch voltages for a safe power output in power systems and off-grid networks.

The AIMS Power 24VDC To 12VDC Step Down Converter product line is non-isolated and should be used in negative ground systems (input and output have a common negative). These ...

- ?Step Down Converter?Input voltage: DC 18V-20V, output voltage: 12V 20A max, output power: 240W. Compared with others whose max current is 10A, this converter has a higher ...

These converters are extremely efficient, compact and include all safety features. The step-down DC-DC converter has an input voltage of 24 ...

This Voltage power step down Converter is Compatible with any De-Walt 18V/20V MAX XR Batteries to 12V 20 Amp Max, widely used in Bus, CMB,Fish finder, GPS navigation, ...
