At EGbatt, we combine cutting-edge lithium battery technology with mobile and fixed energy infrastructure to deliver high-efficiency EV fast charging and energy storage ...

Designed for speed and efficiency, the Charge Qube can be rapidly deployed without the need for complex planning or infrastructure upgrades. Housed ...

Our cutting-edge mobile charging robot is designed to move freely within indoor environments such as shopping malls, commercial buildings, and high-density parking structures.

Designed with mobility, modularity, and flexibility in mind, the TerraCharge platform is set to revolutionize the energy storage industry. Power Edison has collaborated closely with major ...

"By leveraging second-life EV battery packs and modular containerised design, we are delivering a cost-effective, scalable product that supports businesses and public ...

Designed with mobility, modularity, and flexibility in mind, the TerraCharge platform is set to revolutionize the energy storage industry. Power Edison ...

From medium-voltage automation to EV charging networks and prefabricated substations, our systems ensure stable, efficient, and future-ready power distribution.

Delta cooperated with a charging point operator (CPO) to jointly build charging infrastructure for a shopping mall in Central Europe. Combining a DC Ultra Fast Charger with a battery energy ...
