How much electricity does Togo need?

A total of 4 million inhabitants in Togo still must be supplied with electricity. Currently, an electrical power of 230,000 kW is produced in the country. It is estimated that in 2030 a total of 100,800,000 kW of electricity will have to be produced to supply the entire population with electricity.

Why is access to electricity important in Togo?

Togo recognizes that access to electricity is an essential element of its economic development and inclusive growth policy and is one of the major pillars that will enable the implementation of its new National Development Plan. Togo's ambition is to ensure universal access for all Togolese by 2030, with a 100% access rate over the next ten years.

Who is responsible for the energy sector in Togo?

Another important player in the energy sector is the Togolese Agency for Rural Electrification and Renewable Energies (AT2ER), a public institution, with financial autonomy. The agency is in charge of implementing the country's rural electrification policy, promoting and developing renewable energies.

Does Togo offer a subsidy for off-grid solar power?

It should also be noted that some companies among the associations between them carry out projects with the communities for their access to electricity. Since March 2019, the Government of Togo is offering subsidies to Togolese households to cover the cost of off-grid solar power systems.

From voltage stabilization to complete blackout protection, modern uninterruptible power supply equipment serves as Togo's silent guardian across critical sectors.

The project aims to reduce electricity supply shortages at a time of rapidly growing demand, to reduce Togo's dependence on electricity imports from neighboring countries and to expand ...

6Wresearch actively monitors the Togo Modular Uninterruptible Power Supply (UPS) Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, ...

10 kVA / 10 kW Advanced Digital 3 Phase Battery Backup Uninterruptible Power Supply (UPS) And Power Conditioner With Surge Protection. Custom Backup Time Options.
