Together with its partner SPI Intelligence Services, Heliatek has realized a large-scale rooftop installation at Wien Energie's power plant in Vienna Simmering. Close to 350 ...

Solarcont, an Austrian startup, has unveiled Solarcontainer, a portable PV generator that can function as a mobile solar plant ...

Austria's largest photovoltaic system is currently located in Vienna. The 11.45 megawatt system produces over 12 gigawatt hours of solar power for 4,900 Viennese households every year.

With this innovative setup, up to 26.4 kWh of solar power can now be produced on the container roofs and the construction site containers can be sufficiently supplied with green solar power. ...

At the heart of the facility's energy system are over 1,130 photovoltaic-thermal hybrid modules (PVT), supplied by the Saxony-based manufacturer Sunmaxx. Installation and ...

SolarSK completed a 1.3 MW rooftop solar plant for Technopark Vienna in just 3 months. The project powers refrigeration, production, and 300 electric buses, cutting energy ...

With Austria's largest PV carport systems, Magna Powertrain is setting new standards for the energy and mobility transition of mobility technologies.

Solarcont, an Austrian startup, has unveiled Solarcontainer, a portable PV generator that can function as a mobile solar plant independent of the electrical grid.
