What can you use 40 ft office containers for?

You can use our 40 ft office containers as a meeting space, a break area for your crew, or a workspace for blueprints and site drawings. Get ground-level office space with HVACs at your job site on your scheduled day. Feel extra protected with an ISO-grade 40-foot mobile office, which comes equipped with security bars on the windows.

How many bedrooms does a 40ft expandable container house have?

A standard 40ft expandable container house usually has 1-2 bedrooms and can accommodate 2-6 people. With custom interior partitioning, the number of bedrooms can be increased, or spaces for offices or storage can be added, offering flexibility for families or short-term accommodation needs. 3. Where is a 40ft expandable container house suitable for use?

What is an expandable container house?

The expandable container house is composed of a steel structure and sandwich panels. It includes bedrooms, a living room, dining area/kitchen and bathroom. The house comes equipped with full electrical wiring to many countries' standards, power points and a circuit board.

What is a retail container office?

Supply space for a central office, employee break rooms, and conference meeting rooms. With the retail container office, you can use your space more efficiently, manage inventory better, and create a design workspace. Relocatable and built for extreme weather conditions, container offices are an ideal fit for oilfield locations.
