How many energy storage projects are in Chile?

According to a December 2023 publication on the InvestChile website, the country had 23 approved energy storage projects with a total of 3,000 MW of capacity. Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO₂.

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

Why is e-storage delivering a major project in Chile?

Colin Parkin, President of e-STORAGE, stated: "We are pleased to extend our energy storage expertise through the delivery of our first major project in Chile, supporting the government's ambitious goal of getting 70% of its electricity from renewable sources by 2050.

Does Engie Chile have a lithium-ion battery storage system?

Engie Chile, meanwhile, has two lithium-ion battery storage systems in operation, with a total capacity of 141 MW. At the beginning of next year, the company will inaugurate a 264 megawatt-hour, 96-battery facility, taking its total BESS portfolio in Chile to 371 MW.

Discover how METLEN Energy & Metals is driving Chile's renewable future with large-scale solar power and energy storage projects.

With solar capacity expected to grow by 200% in Chile alone by 2030 [4], companies like Canadian Solar's e-STORAGE and CL Energy Storage are racing to deploy battery-packed ...

e-STORAGE has secured a turnkey EPC contract to supply a 98 MW/312 MWh DC Battery Energy Storage System (BESS) to the Huatacondo project in Chile.

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

Chinese companies have in recent years built, or announced plans to build, Chile's longest power line, solar
