Energy Storage Is Powering New York's Clean Energy Transition
Energy Storage Safety
An Expanded Goal of 6 Gigawatts by 2030
In 2019, New York passed the nation-leading Climate Leadership and Community Protection Act (Climate Act), which codified some of the most aggressive energy and climate goals in the country, including 1,500 MW of energy storage by 2025 and 3,000 MW by 2030. In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. [See more on nysed.gov](https://www.nysed.gov)
GTI Fabrication
Energy Storage (BESS) - GTI Fabrication
Battery Energy Storage Systems (BESS) are crucial for utility and energy companies, and at GTI Fabrication, we offer a wide range of ...

A fully-integrated BESS container is a modular energy storage unit housed within a robust, weatherproof container. These systems come ...

Billion Electric Group has established its first energy storage container assembly plant in Taiwan, combining international standard container ...

Containerized Battery Energy Storage Systems (BESS) are essentially large batteries housed within storage containers. These ...

Battery Energy Storage Systems (BESS) are crucial for utility and energy companies, and at GTI Fabrication, we offer a wide range of manufacturing capabilities to provide BESS integrators ...

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

Ever wondered what makes an energy storage container tick? Think of it as a Swiss Army knife for power management --packed with high-tech gadgets that store, convert, and regulate energy.

The renewable energy revolution is accelerating at an unprecedented pace, and at the heart of this transformation lies the BESS Container Assembly Line --a sophisticated manufacturing ...
