What size truck do you use to deliver a container?

Containers can be delivered with two different sizes trucks. #1 - The small truck. This is a tilt bed,roll back wrecker. We use this to deliver 20? containers or smaller. This is the same truck that can move and tow a car. To offload,the front bed tilts,the container slides off the back. The driver needs 60? feet of space.

When will a container be dropped?

Container will not be dropped until CMG or trucking company gets paid for extra hours. Thanks for your advanced understanding. Please do not forget these trucks and drivers cost a lot of money and usually they have another delivery scheduled for that day. They may lose a business because of your negligence.

How long does it take to prepare a container?

These depots are not a retail stores. Very busy and everything has to move fast with timely manner. We need to prepare the container advance and match that to the yard with a release number so trucking company or you can pick up the right container without waiting. We need at least 24 hoursto prepare and make the container ready.

Who makes the best portable storage container?

PODSinvented the portable storage container in 1998 and has been an industry leader ever since. While their brand name can sometimes come with a higher price tag,their experience performing nearly six million deliveries and widespread availability make them the best in the industry.
