What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

Are portable power stations a good choice?

Portable power stations can deliver power when you need it most, whether during power outages or just for an off-grid adventure. These handy electricity suppliers vary in size, output, and energy source, not to mention durability.

Are portable power stations good for camping?

Also, if you camp, these will be a great addition to your camping gear. After testing over 140 power stations and evaluating charging options, capacity, charge time and other features, we've narrowed down our top picks that can serve your needs, ranging from portability to whole home backup. Which is the best overall portable power station?

Are portable power stations expensive?

Updated December 2025: We've added power stations from Bluetti, Anker, Jackery, and DJI, and an honorable mention for an Ampac power station. Portable power stations can be very expensive, but discounts, sales, and deals are common. If you can afford to wait, you can likely get your chosen power station for less than the listed MSRP.

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

If you're going off the grid or prepping for an emergency, we've found the best backup batteries for every need. Our top pick is the EcoFlow River 2 Pro.

My team and I have reviewed every portable power station I've listed here, and as part of our comprehensive review we've assessed capacity, charging times, and core features.

To determine the best portable power stations, we put 22 models through a series of structured tests designed
