Zimbabwe's industrial power users have secured \$250m from the African Export-Import Bank (Afreximbank) to develop a floating solar project at Kariba Dam, the world's ...

Zimbabwe is set to begin construction in the second quarter of 2026 on a 600-megawatt (MW) floating solar power plant on Lake Kariba, the world's largest artificial freshwater reservoir.

The Zimbabwe Energy Regulatory Authority (ZERA) has confirmed receipt of new applications from Lafrica Energy (Private) Limited and New Glovers Solar (Private) Limited, ...

Zimbabwe to build a 250MW floating solar plant on Kariba Dam, scalable to 1GW. Solar project integrates renewable energy into ...

commissioning of the 35MW solar plant comes at a crucial time for Zimbabwe's energy sector, where electricity demand from the mining industry has surged to 2,600MW--far exceeding the ...

Zimbabwe's industrial power users secured \$250 million from the African Export-Import Bank to build floating solar panels at the world's largest man-made lake.

So, from seeing very little action on the utility-scale solar plant to getting 25 MW, 35 MW, and soon another 45 MW, there now appears to be some momentum in Zimbabwe. ...

It provides a data-driven blueprint of where Zimbabwe's solar farms and off-grid installations should be located from sunny rural expanses to large factory rooftops in urban ...
